NEWS RELEASE – NOVEMBER 19, 2009

CADBURY NIGERIA ANNOUNCES IMPROVED PERFORMANCE IN Q3 2009

Cadbury Nigeria has announced the filing of its year to date results for the nine months ending September 30, 2009. The unaudited results show a Turnover of N18.94b and Gross Profits of N5.25B (a 7.9% growth on Turnover and a 63% improvement on Gross Profit against the corresponding period in 2008).

The Company also reported a return to operating profit with N959m made in the 9 months against a loss figure last year in addition to a narrowed Loss Before Tax of N1.27b (a 28.9% performance improvement when measured against a Loss Before Tax position of N1.79b in 2008)

In a statement confirming the filing of results to the regulatory authorities, Cadbury Nigeria's Corporate Affairs Manager, Mr. Kufre Ekanem said: "in addition to our consistent growth in turnover, gross profits and market share, we are proud to report the return of Cadbury Nigeria to Underlying Operating Profits. Also, the loss before tax position caused by the high level of interest charges on historical debts carried by the company has further declined."

According to Ekanem, "the application list for the Cadbury Nigeria Rights Issue closed recently and we are optimistic of the outcome of the ongoing process. We hope to minimize the interest burden on the Company by liquidating the bank borrowings once we receive the net proceeds from our Rights Issue."
